

Hello Gilbert -

We at Kéan Coffee greatly look forward to roasting some spectacular coffees for your "Java Jaws" Surfers Blend coffee concept. I am so impressed with the creative graphics and logo materials you have shown me thus far - the concept you have created is bold and engaging, and I think it's going to be a winner! The "Java Jaws" mug is ingenious - everyone I have shown it to has loved it. Let's get the surfing community drinking some exceptional coffee!

Regards,

Martin Diedrich
